

# ADVANCED OPEN WATER PROGRAM

## YOUR DIVING GOAL

We've noticed that many of our Open Water students like to aim to be an SSI Advanced Open Water diver within 12 months.

We have been in business for over 33 years. We have taught over 5,000 people how to dive and have taken more than 50,000 people out on dive charters.

In our experience it's very clear that until a person combines skills with experience and reaches the Advanced Open Water level, they will never truly be a safe, confident and comfortable diver.

Let our team of friendly, highly qualified and very experienced instructors take you to the level of diving that makes you truly call yourself a Pro!

## EXAMPLES OF DIVES BETWEEN 19 METRES & 40 METRES

## **WHY DO I NEED THIS QUALIFICATION?**

- Imagine you're diving on the WORLD FAMOUS ex-HMAS Brisbane Conservation Park and you can only see 50% of the wreck because you're only certified to 18 metres. Wouldn't you like to see everything this amazing dive site has to offer?
- Imagine you're swimming with a beautiful turtle and it swims down to feed at a depth of 25 metres and you're only certified to 18 metres. Wouldn't you like to get up close and personal at 25 metres?
- Imagine you're with a group of family & friends who all decide to explore a new dive site that's deeper than 18 metres. Wouldn't you like to be exploring with them as opposed to sitting on the boat as look out?

## **WHAT'S AN ADVANCED OPEN WATER ACCREDITATION?**

SSI's Advanced Open Water rating stands alone in the industry with the highest combination of diving knowledge and experience. No other agency's advanced diver level compares.

## **HOW DO I GAIN THIS?**

To earn the certification for Advanced Open Water Diver, you must complete 4 specialty courses and have done a total of 24 dives.

## **PROGRAM INCLUDES:-**

- Deep course
- Your choice of 3 other specialties that are listed below
